W. M. G. L. DEPUE,
Secretary.

Another Early Settler Passes

Another old timer of the Champion district passed away in a Calgary hospital on Wednesday, May 21st, in the person of Mrs. Anna S. Selland, wife of H. H. Selland, at the age of 88 years.

The deceased was born in Norway, where she was married to Mr. Selland previous to moving to North Dakota, from where they moved to the Champion district in 1905, residing a few miles northwest of town continuously since that time. She had been in the hospital for some weeks after an operation, which while successful at the time, proved too great a strain at her age and the fatal ending of her illness had been anticipated for some time. She is survived by her husband; four daughters, Mrs. R. Pritchard, Vulcan; Mrs. E. Yardley, May 2 W. Dunn, and Mrs. K. H. Newington, all in Calgary; four sons, Henry and Louis in Champion, Ola, of Spokane and Edwin, in Riedhill, Alta. One brother also survives her, as well as 11 grand children and one great grandchild.

The funeral was held on Saturday from the Community Hall to the Champion cemetery, Rev. Peter Dawson officiating at the hall and graveside. A profusion of flowers in part expressed the esteem in which the deceased was held by many old time friends. Those contributing tributes of flowers included the following:

Mr. and Mrs. David Watkins, Ed. Elliston, Dr. and Franklin Cool, Mr. and Mrs. George and Mrs. East Adams, The Clevers, Friends Club; Ethel and Flora, Vulcan; Mrs. Cyril Bennett, Calgary; Mr. and Mrs. Fred, Calumet; Mr. and Mrs. J. Yardley, Calgary; Mr. and Mrs. Clowes, Calgary; The Grandchildren; Canadian Pacific Railway Women's Auxiliary, Calgary; Dominion Express Employees, Calgary.

Special Attraction At Chautauqua

See Hastings Marionettes are probably the most famous in the world. Her puppets are always beautifully costumed and move with human agility. While they will prove a revelation to both old and young in Western Canada, they have delighted the continent of Europe for many generations.

These Marionettes will be present at Champion on the afternoon of Thursday, June 11th. The adventures of Peter Rabbit, together with many surprise acts and turns. Peter Rabbit has become familiar to every boy and girl in Western Canada through the medium of the bedtime stories of the leading newspapers. These rabbits will thrill both the parents and little folks by their clever acting, their beautiful costumes and the miniature stage upon which they play. Wonderment will come to many a child's eye as Mother Rabbit and notorious Peter and his sisters appear in real life.

Elwood T. Bailey is intensely human. He is a business man and a twentieth century philosopher. The title of his lecture which will be delivered on Wednesday, June 10th, at the evening session of Chautauqua, is "All Aboard," and will prove an inspiration to all.

It is difficult to describe a lecture by Bailey; in delivering it is exceedingly fluent; he has a charm of personality which is more than attractive. He believes in the individual and in the nation. His lecture will be altogether instructive, with flashes of the oratorical and dramatic. All of us are vitally interested in the questions he discusses. As an orator he is without peer on the Chautauqua platform.

Carmangay 13 ; Vulcan 11

Five home runs featured a game on Wednesday evening between Carmangay and Vulcan, when the former won by a score of 13 to 11. Hamilton, Farries, Watts and McLaren led the long hitting for Carmangay, while Robinson contributed the lone homer for Vulcan.

Reserved Seats For Chautauqua

An innovation for this year's Chautauqua will be a small number of reserved seats. The plan may be seen at F. Sisson's and reservations made at the very small cost of 50 cents per person, this including all the sessions for the four days. Undoubtedly many will take advantage of this arrangement which will assure seat accommodation without the necessity of going at an early hour to secure same.

Dance Saturday Night In Community Hall

A Saturday night dance, with the Len Davis orchestra in attendance, has been arranged for Saturday, May 30th. Dancing will begin at 8:30 and end at 12:00 p.m.

Special Cabbage Plants 65c per 100. Take 'em away from Campbell's.

May 25th was decidedly unfavorable for celebrations, wind and dust prevailing from early in the morning until late in the afternoon.

J. D. Henderson of Champion and C. H. Messinger of Carmangay will attend the meeting of the Masonic Lodge at Edmonton on May 30th.

A movement is on foot to close the elevators on Wednesday afternoons from June 1st to August 1st, or until the new crop starts to move.

Mrs. G. A. Manhard returned from Blackfalds on Saturday. Her daughter, Mrs. Stevenson, was somewhat improved in health when Mrs. Manhard left for home.

Gordon McLean has been appointed census enumerator for townships 15 and 16, range 23, and the Village of Champion. Work on this will commence early in June.

K. R. McLean, R. O. of McLean & Anderson, Sight Specialist 224-8th Ave West, Calgary will make his monthly visit to Champion Friday May 29th, at the Drug Store.

Vulcan was the only town in this section of country that undertook to celebrate May 24th. A high wind accompanied by dust was unfavorable to any kind of outside sport.

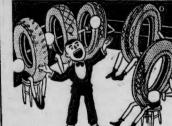

Mrs. W. A. McIntyre was brought home from the Galt hospital, Lethbridge on Wednesday, and is receiving the congratulations of many friends on her prompt recovery.

The completion of the Stucco on the residence occupied by E. N. Popham and owned by I. Granlin, has improved its appearance wonderfully. Alex Rinaldi was in charge of the work.

H. Selland and family wish to express their appreciation of the kindnesses and assistance rendered them in their recent bereavement, and also extend their thanks to the donor of the beautiful flowers.

Mrs. J. N. Beaubier, Mrs. F. C. Aleck and Mrs. D. W. Watsons are home after attending the provincial convention of the Women's Institute, the sessions of which proved interesting as usual. Mrs. Beaubier was reelected as provincial secretary.

Strayed
From the premises of the undersigned one brown gelding, weight 1500 lbs. Bay Gelding, weight 1400 lbs.; Bay Mare, (proven) weight 1300 lbs. All above horses are roached mares and pulled tails and are branded reverse R in circle. Suitable reward for information leading to recovery. E. A. Hamer, phone it 1014 Champion.

From Swift Current to the Manitoba boundary Saskatchewan was on Monday raked by high winds which reached a velocity sufficient to blow down telephone poles and farm buildings. Damaged to both crops and buildings reached serious proportions all over the province.

With reference to the wheat acreage by 4,500,000 acres. Add to this 2,000,000 acres less sown in the prairie provinces, together with a considerable acreage blown out, and there should be a decided shrinkage in the bushels of wheat produced outside Russia.

Rain on Wednesday night, while light in Champion, was reported to have been much heavier at points east.

NOTES AND COMMENT.

The London Wheat Conference is over and the general belief that but little would be accomplished seems to be justified. Other nations are very much like Canada—they are willing to co-operate if the co-operation is favorable to their own interests.

Crimes of violence, in which desperate men visit their financial woes, and their families as well as themselves, have been very common of late. It is one way out, but a way which fortunately requires a species of insanity to even contemplate.

While the continued dry weather is trying in the extreme to nerves already on edge from other causes, there is a great deal to be grateful for as yet in the general fine appearance of the spring sown grain. In spite of the dry spell almost continuous high winds and heavy frosts there is still material here to make a real crop.

The spring clean up inaugurated by the town council has had decidedly satisfactory results. One grateful result is the disappearance of most of the old wrecks of cars which formerly abounded. Efforts towards improved appearances are nearly always satisfactory to the public at large when completed. Half way measures are as generally disappointing.

The Alberta Women's Institute find additional economies necessary in order to continue functioning. The shortage of money is no respecter of individuals or organizations in its effects. Bowing before the storm instead of trying to ride over it seems commendable in every direction.

The advent of Chautauqua in the second week in June should enliven things for the four days on which it is held here. This organization has always been popular in Champion and vicinity, and while money is less plentiful than usual and fewer men are employed in the vicinity, there is still the material for audiences as big as the big hall will accommodate, as has been illustrated recently.

The Census

Statement by the Minister of Trade and Commerce to the People of Canada at the Opening of the Seventh Decennial Census.

1. Do not hesitate to answer the inquiries of the census-taker. The object of the census is to collect data concerning the social and industrial conditions in the country as a whole and for the different provinces, cities, and counties. Answers to the questions will be used for the protection of all citizens and employees of the Census Bureau are liable to severe punishment if they divulge any of the information collected about any individual person.

2. Meet the census-taker courteously. You will save time for yourself and the enumerator by giving him assistance by co-operating with the enumerator when he arrives at your home.

3. If you do not have exact infor-

mation about such questions as the value of your home or the amount of your earnings, give the best estimate you can.

4. The "woman in the home" should be prepared for the census questions in advance, for she is the member of the family with whom enumerators call upon to answer the inquiries.

5. Persons living alone should fill out promptly any individual blanks left by the enumerator who may have called during his absence, and families away from home on visits should be sure to see that they are counted in the district where they maintain their usual place of abode.

6. Do not hesitate to ask the census taker to show his credentials if you suspect that he is not a bona fide enumerator.

Has Miraculous Escape

On Saturday afternoon, while plowing on the farm of John Wannep, Arthur, his brother, fell from the tractor, evidently in a faint. He was caught by the plow and dragged a number of yards. His moments of unconsciousness, however, must have been brief, for when he realized where he was and what had happened the machine had only gone a short distance from where he found himself. He immediately got up and ran after the machine, and in spite of his injuries succeeded in stopping it. He is being commended over the fact of a bruised body and a rather badly injured hand, and at the same time is being congratulated over having escaped with his life.—Nanton Correspondent in Lethbridge Herald.

Gunder Nerison

Light Opera Company
At Chautauqua

Popular numbers from "Naughty Marietta," "Blossom Time," and "Rob Roy," skilfully adapted to fit the selected time, will be given with remarkable realism and variety by the Carman Light Opera Company on the evening of June 9th at Champion.

A feature of the presentation of these operas is the condensed story of the whole opera briefly given by the manager of the company, then the company sings and acts the most popular numbers and gives enough of the dialogue to complete the picture of the opera in its entirety. The costumes and scenery are true in every detail to each opera, and were designed by the same artist who plans much of the Schubert Productions.

For their opening number a dramaticized cathedral choir service with robes, lighting effects and proper backgrounds will render a series of our most beloved sacred songs and anthems.

The Census of Canada

1931

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

Issued by

HON. H. H. STEVENS, Minister

Imagination Cannot Grasp The Progress The World May Make In The Vista Of Future Years

To those who sometimes express the wish that they might return to life one hundred years hence to see what the world looks like, the prophecy of Sir James Jesus is that it will last for about one million million years makes their wish seem a very trivial thing.

It is now twelve thousand years since mankind was living in the stone age. It was only after the advent of the steam age in the early part of last century that scientific progress began to make real headway. Today, steam has very largely been displaced by electricity. And electricity itself is only in its infancy. Scientists do not even know what it is. Electricity may be as primitive as man himself.

Millions of years before the Jeans prophecy is put to the test inhabitants of Earth may take trips to Mars and Venus and other planets. When we get there the Martians may have something to show us that we do not dream of. Perhaps they will discover these secrets before we do ourselves by dropping on one day.

It all staggers imagination. Those who believe in reincarnation must rejoice at the prospects.

Investigate Radium

Royal Inquiry Into Use Of Radium Treatment Will Be Held In Ontario

The appointment of Dr. H. J. Cody, of Toronto, to head a royal inquiry, by the province of Ontario, into the use of radium as a treatment for cancer was announced by Premier George S. Henry. As associate on the committee, he will be joined by Professor J. C. McLennan, of the University of Toronto; Dr. W. T. Connel, of Queen's University, Kingston; Arthur Ford, managing editor of the London Free Press; and Hon. Dr. J. M. Robb, provincial minister of health.

Many Orders For Bees

Over Thousand Applications For Packages Beekeepers From Saskatchewan

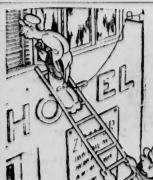

Considerable expansion of the bee-keeping industry in Saskatchewan is indicated by the many requests for packages of bees, according to Dr. M. Pugh, Provincial Apiculturist. To date, 1,041 applications or orders have been received as compared with 690 at the corresponding date last year. In previous years, the number of applications has been at least 50 per cent greater than last year. Mr. Pugh stated that a considerable proportion of the applications had been received from new bee-keepers.

Overseas Air Route

Negotiations are still proceeding between Imperial Airways and Canadian authorities with a view to establishing an air service with giant flying boats between England and Canada, according to the air correspondent of the London Daily Herald. Experts have already collected full details regarding meteorological conditions, the newspaper declared.

Contrary To Opinion

Men in a Memphis newspaper, who found after query to his information bureau had been totalled, and it was found that of the 205 questions asked, 125 were from men, and the remainder from women.

"Please come down, it is my vehicle;
I don't care. I am working over
time today!" Die Muskete, Vienna

W. N. U. 1891

Times Have Been Harder

Only Thirty Years Ago and What a Difference!

We still miss the party who exclaims "These are tough times! Tough times?" Well, well! We read a reminiscence from 1900, the heyday of the bicycle, which notes that there were then 100,000 bicyclists in the country, equal to every seventy people. And in 1931 we are nearly at a figure of one automobile for every four people!

Horses? Well, in 1900 there were reported 25,000,000 horses in the land, worth about \$100 each. Our present 28,000,000 registered automobiles are stated to be worth anything up to \$300 each. And the 1930 U.S. statistical abstract declares the country still possesses 10,000,000 horses and mules!

Tough times? What about roads. Road of any kind? In 1900 roads today there were none in 1900—absolutely none, except railroads. The country lad who in 1900 returned from a trip to Detroit had an audience for his tale of woe about it. Now it doesn't seem unusual to him to go around the world at least twice!—Detroit News.

Would Encourage Use

Of Canadian Barley

To Replace Foreign Grown Corn In Livestock Feed

Steps to encourage use of Canadian barley in livestock feeding were described by Hon. Robert Webb, Minister of Agriculture, when the resolution of the Saskatchewan Board of Trade was referred to him. The resolution asked the government to insure the use of Canadian grown barley rather than foreign grown corn in livestock feeding.

Last fall, after tests had been conducted, it was decided to put out tables showing how barley could be advantageously used for feeding both poultry and livestock. The tests proved barley to be very suitable as compared with corn.

One of the advantages has been that the 7,000,000 or 8,000,000 bushels of barley stored at the Head of the Lakes cost considerably less than the same amount of barley imported from Europe. The farmers feeding livestock in the eastern part of Canada objected to this because of the danger of the weeds being spread on their own farms.

Record Butterfat Test

High Producing Jersey Cow Owned By Alberta Man

What is believed to be a record butterfat test for a cow of any age or breed ever made was set by S. Clarke of Claresholm for the three-year-old Jersey cow "Watkiel Zenia's Fanny," which, in official R.O.P. test for the past 60 days, made a test of 9.8 per cent.

The high-producing cow is one of the choice animals purchased last year by Mr. Clarke in the state of Washington, and added to his herd at Claresholm. The average content of the milk, which is exceptionally high for even a cow of this breed, is certified by F. King of the Dominion Government cow-testing staff.

At the rate, the Clarke cow, in her average flow of two gallons of milk per day, produces sufficient butterfat to make approximately 2½ pounds of butter.

Use Of Combines

Big Saving In Combining Method Of Harvesting Grain

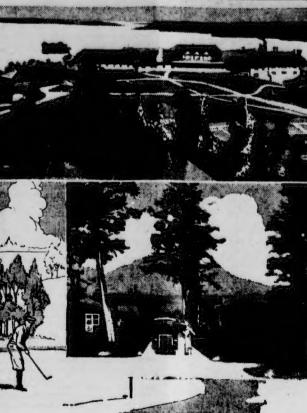

According to the annual report of the Director of the Dominion Experimental Station, 1930, 85,000 tractors, steam and motor, were in use in 1929, the report adds: "The introduction of the combine method of harvesting grain has also reduced the time required and the cost of harvesting grain. Starting with a machine which was introduced and experimented with on the Dominion Experimental Station at Swift Current, Sask., in 1922, there are now located in the three provinces 17,726 combines of various types.

These savings in labor have reduced the cost of growing crops. The use of the combine alone, as compared to the binder and thresher method, has effected a saving of approximately 2 cents per bushel on a 20-bushel crop."

According to census figures just released, Java has 821 people square mile.

Coincidental of coins was an underworld "racket" in provinces of the Roman Empire.

WELL-KNOWN SUMMER RESORTS

It is said that Canadians are in the minority when it comes to knowing their own playgrounds. Be this as it may, figures reveal that of persons entering Canada for vacation purposes shows an annual increase. Canada has much to offer to the tourist in the way of resorts, and Jasper National Park, and Minaki, on the Lake of the Woods region, are among the most popular vacation spots for holiday seekers. The Canadian National Railways maintain high class hotel accommodations at Park Lodge, open June 1st to September 30th, and Minaki Lodge, from June 26th to September 7th. The top scene is a view of Minaki Lodge; the bottom is a row of bungalows at Jasper.

British Columbia Fruit
In 1926, British Columbia shipped 160,237 24 pint crates of strawberries; 95,229 pint crates of raspberries; and 9,000 pint crates of loganberries. The British Columbia cannery and jam manufacturers and the whalers put up 1,263 tons of strawberries; 547 tons of raspberries; 25,622 tons of loganberries; and 25,622 tons of tomatoes.

Wheat Exports Greater

Wheat exports for the first eight months of the current crop year are roughly 61,500,000 bushels greater than during the same period of the previous crop year, the totals being, respectively, 161,359,399 bushels and 100,112,988 bushels.

A liner being built in Scotland will have 13 decks.

FASHION

281—Modish Peplum. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 3 yards 36 inches material and 2 yards 36 inches contrasting.

CHAPTER XVIII.—Continued.

In his surprise Nick stared at her so intently that she flushed, and sat a little straighter in her chair.

"That's mighty thoughtful of you," he said at last, "but I'd hardly like to accept so much from mere acquaintances."

"Oh, that needn't trouble you. They're only too glad to take along an attractive man. It won't cost me a penny, and I don't mind my saying that, do you? I know such things have to be considered. The Myers are tremendously wealthy, and they are constantly inviting people like this. They prefer it to hiring me, I think. It would be almost wicked to let them change. You're not likely to run into such things again."

It flashed through Nick's mind that there was only one way to make things right, and that was for Angela to return to him. She tested that he couldn't afford much sight-seeing, and that such a trip would mean a great deal to him, a round-the-world cruise, he said. "I don't know how to thank you. Can you give me twenty-four hours to think it over?"

Angela smiled. "Yes, I can. You see, I don't go there a someone at the Titchfield means to ask. He's leaving at once, and they'd have to speak to him tomorrow, after I've packed up my things. However, I'll get back to the morning if it ever over; but I warn you you'll miss the time of your life if you refuse!"

"I can believe that. It's a marvelous opportunity. And you crossed the island just to give it to me?"

He was about to touch her, but she drew back with a start of fear.

"I'd do more than that for a good friend like you, Nick," she said, with obvious sincerity.

He arose slowly, and pulled back his chair. "I'll let you know in the morning. Would you like to walk a bit before dark—or tired?"

"Let's walk by all means. Can't get away from you."

It was dark when they returned, and strains of music were wafted from the ballroom. They stood on the veranda, looking in at the gaily lighted scene. Not many were dancing, and the floor seemed as a mirror; it was too much for Angela.

"Let's dance. You do dance, don't you, Nick?"

"Try me and see. We dance down here, even in Bakerstvle. Don't you ever want to dance school? My Uncle would have voted that; but I'd have danced. Angels, I had been born on a desert island. It's the music that was born in me. I suppose that's

a wait! Have you forgotten how to walk since play days?"

"Try me and see," echoed Angela, with a soft laugh.

Between strolls through sweet-scented shrubbery, they danced, till a tired orchestra put up its instruments for the night.

"Have you decided?" asked Angela, as they stood together drinking in cooling breaths of the soft, night air.

Nick looked at Angela, and from Angela to a vista of what seemed at that moment to be the world.

It would be wonderful indeed to set upon it—*to go to the ends of the earth* as he had meant to go five years before. And John Maxwell had told him to go to the ends of the earth. She wouldn't have him limit it for a kingdom. If there were time to consult her—but there!—there was! He must decide himself. And he'd be a blooming success, too, if he could buy it. It would only take a chance. Anna had said they would arrange to drop him somewhere. To be sure, "somewhere" was rather indefinite, but there was no farther from New York than to London, and no doubt it could be arranged.

Nick stirred restlessly. The old love of adventure was back, relentlessly urging. His eyes met Angela's, bold and wistful in the starlight.

"I'm going to you, to God."

His smile was a little thin; she was! Gay was all wrong about her. She'd seen it, too, when he told her how Angela had crossed the island just to give him this wonderful opportunity. Why, she was kind! Perhaps she was lonely—unhappy—and he seemed to be an old friend. He!

"Well?" Angela insisted.

"Well?" Nick asked.

He squared his shoulders, as if in relief at the decision.

Angels said: "That's splendid! We'll see that you don't regret it. I must say good-night now. Nick, I'm taking the early train and I'm rather sleepy. You've given me a beautiful evening. Your dancing was something to dream about."

"Not a nightmare. You won't be up when I leave, so I'll say good-by. I'll write you further about our plans. Good-night."

She clasped her hand, that soft, white hand that Gay had once remembered with regretful pain.

"Good-night; but I'll have breakfast with you, of course, and see you off. That's all I can do for you now."

He helped her up the stairs, where, turning as she reached the top, she waved farewell. Nick saluted, and went up again on the cool veranda, seating himself in a seduced mood, and began to work in the beauty of the tropic night.

Now that Angels was gone he felt suddenly dazed at that sudden change of plan. It was as if a fairy god-mother had come and as suddenly vanished. He wondered, as the thought of home came back again, if his decision had been wise. There was yet time . . .

"The matter is with me?" he mused. "And the weather? What's the wind like in a tropical weathercock? While Angela was talking I felt that it would be absurd to refuse the invitation; yet, now, when I remember how long I've been away, and that I've been getting along so well, I feel sick again. At camp next fall, it doesn't seem fair to Gay. She needs a change as well as I; and I've had a bulky time as it is. Why can't I be satisfied with what I've got out of it now?"

He sat quite still, looking off at the quiet water—then up at the stars.

"Oh, it would be glorious to cruise in these beautiful blue waters!" he thought. "I'd see things I never dreamt of. Not many were dancing, and the floor seemed as a mirror; it was too much for Angela."

"Let's dance. You do dance, don't you, Nick?"

"Try me and see. We dance down here, even in Bakerstvle. Don't you ever want to dance school? My Uncle would have voted that; but I'd have danced. Angels, I had been born on a desert island. It's the music that was born in me. I suppose that's

the most important part of the fact."

"I'd do more than that for a good friend like you, Nick," she said, with obvious sincerity.

He arose slowly, and pulled back his chair. "I'll let you know in the morning. Would you like to walk a bit before dark—or tired?"

"Let's walk by all means. Can't get away from you."

It was dark when they returned, and strains of music were wafted from the ballroom. They stood on the veranda, looking in at the gaily lighted scene. Not many were dancing, and the floor seemed as a mirror; it was too much for Angela.

"Let's dance. You do dance, don't you, Nick?"

"Try me and see. We dance down here, even in Bakerstvle. Don't you ever want to dance school? My Uncle would have voted that; but I'd have danced. Angels, I had been born on a desert island. It's the music that was born in me. I suppose that's

WORLD HAPPENINGS BRIEFLY TOLD

Insurance indemnities are not liable to income tax, the Supreme Court of Canada has ruled.

Gold reserves of the world will be turned in the United States for international banking by the French, White House said.

The Graf Zeppelin is being prepared to make six trans-Atlantic trips this summer, Martin Wronsky said.

The government does not intend making any changes to the Canadian Grain Act in the present session, Hon. H. L. MacKenzie said.

Cariboo centre of Canada's greatest gold rush had the value of \$360,000,000 if it could be worked commercially and scientifically.

One of the paintings of Mrs. Melita Astor of Victoria, B.C., has been hung by the Royal Academy, London, England.

Termed too radical in character, the Senate defeated a bill which would have compelled citizens of Canada to carry an identification card bearing their photographs.

The women of the Dominion will present a huge petition to the League of Nations urging reduction in the manufacture of the instruments of warfare.

Canada sold to China 134,000 tons of wheat last year, while Australia sold 400,000 tons, according to figures given by Hon. H. H. Stevens.

Chief Buffalo, Child Longfellow, president of Canadian oil, has received a commercial pilot's license. He expects to engage in flying air mail in the North West Territories.

Airline Limbs Absorbed

Reported Change In Services Operating in Northern Alberta

Announcement was made of Montreal that Canadian Airways, Limited, had absorbed Commercial Airways of Edmonton, Limited, which started December 1, 1930, a regular air mail service between Fort McMurray, Alberta, and Akwilaik, North West Territories, at the mouth of the MacKenzie River.

In making the announcement G. C. Drury, secretary-treasurer of Canadian Airways, said the assets and liabilities of Commercial Airways were not available. It is understood that in arrangement with the government its air mail contract had been assured by the Canadian Airways, which had purchased five of the company's smaller aircraft.

Capt. R. W. (Wop) May, outstanding western pilot, will now fly for Canadian Airways, it is announced.

Silver Wires For Violin Bows

German States New Material Gives More Brilliant Tone

Violin bows, which have been strung with horsehair ever since the Middle Ages at least, may soon have to yield place to a new form of an old material. A German violinist has been experimenting with a string with silver wires of hair-like fineness, slightly roughened on their surfaces to set the violin strings vibrating. It is claimed that a seeming added brilliancy of tone is achieved that exceed the effects usually obtained with the old horsehair.—Popular Science.

Testing Canadian Seed Grains

A shipment of seed grains and grain was recently sent from the University of Saskatchewan, Saskatoon, to a buyer in Chile, South America, who wishes to test out some of the improved varieties produced in Canada.

A machine has been invented to slice bread as leaves them the oven in large bakeries, the slices being sealed in waxed paper packages for sale. This is said to save the waste of stale bread.

TO KEEP THE Children Healthy

When they're "off colour" give them Dr. Carter's all vegetable Little Liver Pudding. It goes gently on the bowels and liver, they soon bring back smiles and high spirits. Healthy youngsters should show.

JAPANESE PRINCE AND BRIDE VISIT UNIVERSITY

Sir Robert Falconer, head of University of Toronto, points out features of interest to Prince and Princess Takamatsu at the Soldier's Tower during the royal honeymooners' tour of the University of Toronto.

Vacation Tours By Plane

Luxury airplane tours, in which amateur pilots combine a pleasant trip with visits to interesting places, are being built for tours in Europe. The tours will be led by experienced pilots and the planes will be kept together as much as possible. Each pilot will be his own skipper, each pilot will be on his own to a certain extent, but will join the party at each stopping place, where guides will show the sights.

Trade With Russia

Soviet Russia, with whom Canada has curtailed trade relations, sold this country goods valued at \$1,917,632 during the fiscal year ending last March. It was shown in a report issued by the Bureau of the Department of Statistics. At the same time, Canada sold Russia goods valued at \$68,100.

Glass made from natural gas is a new invention.

FASHION

No. 223—Becoming Model.

This style is designed in sizes 36, 38, 40 and 42. It is a becoming model in a light fabric.

Size 36 requires 3½ yards of 36-in. material with a yard of 36-inch material.

No. 233—Two-Piece Dress. This style is designed in sizes 4, 6, 8, 10, 12, 14, 16, 18, 20 years. It is a becoming model in a light fabric.

Size 36 requires 3½ yards of 36-in. material with 7 yards of 36-in. contrasting.

No. 234—Simple House Frock. This style is designed in sizes 16, 18, 20 years. Size 8 requires 2½ yards of 36-inch material for dress and hat with 1½ yards of 36-inch material for blouse and 1½ yards of binding.

No. 187—Smart House Frock. This style is designed in sizes 10, 12, 14, 16, 18, 20 years. Size 8 requires 2½ yards of 36-inch material for dress and hat with 1½ yards of 36-inch material for blouse and 1½ yards of

binding. It may also be had for adults in sizes 14, 20 years, 36 and 38 inches bust.

Our large Fashion Magazine shows the latest Paris styles for spring and summer for adults and children. Also includes a section for housekeeping.

Price of book 15 cents.

All patterns 25 cents in stamps or coin (postage preferred). Wrap coin carefully.

JESUS IN GETHSEMANE

God's Test. "Never I pray be willing to remove this cup from me; nevertheless not My will, but Thine, be done."—Luke 22:42.

Lesson: Luke 22:24-71.

Devotional Reading: Psalm 130.

Explanation and Comments

The Agony in the Garden, Verses 38-44. Jesus went, as usual, to the Garden of Gethsemane for His oft-times resorted shelter with His disciples. John tells us (18:21) that Jesus said, "Hitherto ye have been with Me; but lo, the hour cometh, when I shall be gone from you." Then He reached the customary, place of prayer, the Garden of Gethsemane. He turned to His three, and said, "Pray that ye enter not into temptation." That is, "Pray that ye do not give way to temptation."

That was not the only temptation.

When the moment of arrest came, prayer had made the Master call the strong, silent power of prayer. His twelve disciples were frantic and cowardly.

Jesus cast a stone's throw away from His waiting disciples.

It was but a stone's throw, and yet it definitely separated Him and them. And so it is always in man's life. We must needs go to the crossroads, and stand alone.

We can bear no witness when the agony of life gathers around us. We can bear no witness beyond the kind of friends, beyond our pity and help, which the greater trials of life bring to be achieved.

In those few steps from our Lord passed from the quiet life of the garden into the turbulent life of the cross. "The Son of Man cometh not to be ministered unto, but to minister; and to bear the bearing of the sins of the crowd."—W. J. Dawson.

As He kneeled down and prayed, saying, "Father, if Thou be willing, remove this cup from Me," He expressed the agonized point of view.

In Psalm 75:8 it is the portion of judgment, "I will hear it, and bear it; my strength fails before Thee."—W. J. Dawson.

"So let me follow after Thee. To Thee I may be a burden still. Because I do my Father's will."

Friends He failed, and yet He did not give up. He did not give up a divine will, and the former did not always conform itself to the latter in the inner man's struggle; compare John 3:30, 3:35.

Friends He failed, and yet He did not give up. He did not give up a divine will, and the former did not always conform itself to the latter in the inner man's struggle; compare John 3:30, 3:35.

Friends He failed, and yet He did not give up. He did not give up

FREIGHT RATES FORM SUBJECT OF HOUSE DEBATE

Ottawa, Ont.—Alleged discrimination against western shippers as a result of difference between export and export freight rates formed the subject of debate in the House of Commons. The matter was brought up by Thomas Reid, Liberal member for New Westminster, on a government motion to go into supply.

Mr. Reid's speech wound up an amendment calling upon the House to declare in favor of fixing an early date for the cabinet to hear the petition against the prevailing freight rates, from the provinces of Alberta, Saskatchewan and British Columbia.

An amendment to supply is equivalent to a motion of want of confidence, and consequently could not be accepted by the government. It was moved instead by Rt. Hon. R. B. Bennett, Prime Minister, when he followed Mr. Reid in the debate. The Premier reviewed briefly the history of the last appeal to the Privy Council against the petition of the Railway Commission to the government by the Commission.

The appeal, heard by the government of Rt. Hon. Mackenzie King in 1929, had not been decided at the time of the election. The election resulted in defeat for the King administration, and consequently the appeal remained undecided.

It was the intention of the present government to hear it at as early a date as possible.

A. W. Neill, Independent member for Cochrane, said that the government had raised the question in parliament six times. There should be no difference between export and domestic rates.

H. J. Barber, Conservative, from Brandon, Manitoba, reported that the Liberal Government had done nothing during its nine years in office to remedy the situation. The present government could hardly be blamed for failing to take action on its short period of nine months.

From the maritime provinces, Hon. P. J. Veniot, Liberal member for Gloucester, urged reduction in the present domestic rates from Winnipeg to the maritime provinces. The rate from Winnipeg to Saint John was too high, he said. With a proper domestic rate, New Brunswick would have two more revenue marts, he claimed.

C. G. Coote (U.P.A., MacLeod) said the proposal for reduction in domestic rates had in respect to grain, the unanimous approval of the U.P.A. members. A resolution to this effect had been passed in the last annual meeting of the United Farmers of Alberta, and, in fact, had been passed annually for the last eight or nine years.

"Would the honorable member suggest," M. C. Nicholson interjected, "the abolishing of the Board of Railways Commissioners and the making of freight rates in this House?"

"No," Mr. Coote answered. "I would not go that far." But, he added, some decline in the board were hard to understand.

W. J. Loucks (Conservative, Roseau), said he believed the time was ripe for a reduction in domestic rates. Something should be done; and in view of the remarks of the Prime Minister he thought something would be done.

Conference May Be Delayed

Prime Minister Hints At Postponement Of Meeting In August

Ottawa, Ont.—The possibility of some delay in the holding of the Imperial Economic Conference in Ottawa was suggested by the House of Commons by Rt. Hon. R. B. Bennett, Prime Minister.

In answer to a question by Hon. Ernest Lapointe, former Minister of Justice, Mr. Bennett said he had not yet made the decision. If possible, to hold the conference some time in August. There was, however, the possibility of elections in both New Zealand and Australia, which might cause difficulty.

He promised to inform the House when he had definite information.

Plans For Conference On Employment

Mayor Of Winnipeg Proposes Meeting Of Municipal Chair Officials

Winnipeg, Man.—Mayor Ralph H. Webb of Winnipeg has outlined a proposal for a province-wide unemployment conference. Mayors of cities and towns and reeves of municipalities will be invited to attend the conference. Concrete proposals to aid unemployed next season would then be laid before the provincial government. Mayor Webb said. In the meantime, he intends to call a meeting of representatives of greater Winnipeg municipalities.

Gold Rush Continues

Many Claims Already Staked In Life Lake District

Flake Lake, Sask.—The "rush" to the Poplar Creek bed, six miles east of Flax Lake, and on towards Corosash, continues and many claims have been staked.

According to information received, M. M. Bennett, a farmer opposite the M. W. Loflin farm, has dug up and sent to his son in Los Angeles a reply that there were traces of gold. M. Larson, one of the men interested in the purchase of the Woelflin farm, is reported to have sent samples recently to the assay office in Moose Jaw, and informed that the dirt he sent contained gold running from \$2 to \$20 a ton.

Flake Lake is almost directly south of Moose Jaw, and the claims located in that area are ten miles from the international border line.

Men familiar with the district, who have explored it, claim there are heavy deposits of iron pyrites in the bedrock of the Poplar, Horse and branches of Frenchmen's creeks.

So far no gold is known to have been taken from the places where claims have been staked during the past two days.

Stiff Sentences For Reds

Revolutionists In Indo-China Given Long Prison Terms

Paris, France.—A harsh dispatch from French Indo-China says long prison terms have been given Communist revolutionists following a trial at which a woman was released. Communist plots in Indo-China were directed from Canton.

The chief of the Saigon Communists was sentenced to life imprisonment for participation in the formation of a secret society of the French administration. Five others were given 20 years, seven were sentenced to 15 years and 45 from five to 10 years.

An alleged plot to assassinate Governor-General Sauer at Saigon was revealed during the trials.

British House Refuses To Legalize Lotteries

Application To Introduce Bill Defeated By Large Majority

London, Eng.—A bill introduced by Commons came down handily on a vote of legalization of lotteries in support of hospitals, defeating by 181 to 58 an application by a Conservative member for leave to introduce a bill authorizing the operation of such lotteries.

There has been considerable agitation in favor of loosening up the laws concerning lotteries. It was assumed which would give a great boost to the country into the Irish Hospital Sweepstakes on horse races, while charitable institutions at home need money.

Private Members Restricted

If Motion By Premier Bennett Is Adopted

Ottawa, Ont.—Private members had their last entry day in the House of Commons during the present session, if a motion placed on the order paper by Premier R. B. Bennett is adopted.

Mr. Bennett's motion provides that on and after Monday, May 25, and all subsequent Mondays till the end of the session, government business shall be limited to one hour on Tuesday evening and one hour on Friday evening between eight and nine in each case, for consideration of private members legislation.

Figures On Butter Imports

Total For Three Months Was \$2,148,000 Pounds

Ottawa, Ont.—Total imports of butter from all countries into Canada from February 1 to April 30, 1931, were 2,148,494 pounds, stated Hon. Ernest Lapointe, Minister of Finance, in the House of Commons. Imports collected were 8,462 cents at 11 cents per pound; 57,176 pounds at 12 cents per pound; 308,440 pounds at eight cents per pound; 10,116 pounds at seven cents per pound; and 1,000 pounds at six cents per pound.

New Zealand butter was imported to the total of 254,440 pounds, and Australian, 1,683,416 pounds.

Duty On Cucumbers Fixed

Ottawa, Ont.—An extra issue of the Canada Gazette gives notice that the value for duty of cucumbers has been fixed at seven cents per pound when entered under the intermediate or general classification, to be computed on the weight as imported, weight of the package included.

System Of Credits Will Be Discussed

Premier Bennett Suggests Matter Be Referred To Banking Committee

Ottawa, Ont.—The question of setting up a system of intermediate credits has been referred to be considered and discussed, in the light of knowledge possessed by the government respecting the \$5,000,000 revolving credit corporation, before the House Committee of the House of Commons.

Unanimous decision favoring this action followed the introduction of a proposal in the House by W. T. McLean, of Kitchener, for the authorization of some system of intermediate credits; and a statement by Rt. Hon. R. B. Bennett, Prime Minister, suggesting that the whole matter be referred to the banking and commerce committee of the House of Commons.

The government would not take

WITH POLAR FLIGHT

Matter Brought Up In House By Hon. Peter Heenan

Ottawa, Ont.—Once more, the House of Commons debated the eight-hour day throughout the Dominion, and other economic and financial difficulties were cited as a bar to any immediate action in this respect.

Ron. Peter Heenan, former minister of labor, and Liberal member for Kenora, introduced the motion to bring the matter up. In a resolution setting forth that Canada is a signatory to the Treaty of Versailles "thereby subscribing to the principle of a maximum of eight hours of work a day," Mr. Heenan called upon the government to take steps to insure the fulfillment of treaty obligations relating to hours of work.

Attorney General, George C. Clark, Minister of Justice, indicated that the government had no objection to the resolution passing. It was still under discussion when the House adjourned.

It therefore comes into the category of proposed minor legislation, which has been "talked over," and will probably not be discussed again during the present session.

For Transporting Opium

Hamilton Chinaman Receives Heavy Sentence When Found Guilty

Hamilton, Ont.—After hearing the case in his court, Justice Thompson in the provincial court here, Lee Wong, local Chinese, charged his plea from not guilty to guilty on a charge of transporting opium. He was sentenced to five years in the Ontario Provincial Penitentiary, and was fined \$1,000.

E. J. Murphy, K.C., for the crown, stated that a man named Lee Hee had been found in Regent with five large tins of opium. That he deserved special treatment in the case of China, One Neo-Eastern delegate, was, however, confident that if the conference can reach an agreement not to dump wheat there would be no difficulty in implementing the agreement.

"I have no doubt," he said, "that ways can be devised for assuring that the country which agrees not to dump will abide by its word."

More Building In April

Again Holds High Position

Humble Miner Heads General Assembly Of Church Of Scotland

Edinburgh, Scotland.—James McNaughton, the humble miner, who became a Member of Parliament, once more was appointed Lord High Commissioner to the General Assembly of the Church of Scotland.

He said, that Mrs. Brown was installed again at Holyrood Palace, where they held a service with all the pomp and dignity of royalty. Late Mr. Brown and his wife drove in semi-state with outriders to St. Giles' Cathedral.

BEAUBARNOIS POWER PROBE WILL BE HELD

Ottawa, Ont.—A committee of the House of Commons will investigate the Beaubarnois Power Corporation's various subsidiaries, and its scheme for development of hydroelectric energy by the construction of a canal to divert a portion of the Saguenay River through three miles of special gorges chosen by Miss Nichols for her ocean voyage.

LITTLE TRAVELLERS MADE LONG JOURNEY

Unperturbed—these three little travellers, Anton, Helena and Josef, aged 3, 4, and 7 respectively, were travel-weary but uncomplainingly waited for their train to bring them to their new home in Canada's Pacific Winnipeg Dept. Later they continued their journey to join their father, P. Lickiss, at Coleman, Alberta.

Eight-Hour Day Debated

Poland's Plan Quota Basis For Export Wheat

London, England.—Divergent views are developing at the conference of wheat-exporting countries here. The Polish delegation states that its view first announced in non-participation in any international organization against export quotas of wheat, and in favor of reduction of wheat acreage as the way out of present difficulties, has been joined by the Dutch, Belgians and Danes, and recently joined the Polish and Danish countries in favor of export quotas. And Russia introduced a new element which is likely to arouse opposition.

The Polish proposed quota did not attempt to fix any basis for the quotas. The Russia plan has not yet been published, but it is understood to propose that the agricultural delegation in the five-year period immediately preceding the Great War should be taken as the basis for the quotas. But such a basis, it is commented, would operate in favor of Russia and heavily taxed countries which, like Canada, have developed their wheat exports since the war.

The Russians are willing, the United States will enter into a non-dumping agreement.

Conference observers are speculating on how a no-dumping agreement could be operated and made effective, and how a fair export price could be determined. That is, it is believed, would be specially difficult in the case of Russia. One Neo-Eastern delegate, was, however, confident that if the conference can reach an agreement not to dump wheat there would be no difficulty in implementing the agreement.

"I have no doubt," he said, "that ways can be devised for assuring that the country which agrees not to dump will abide by its word."

Poultry Prevents Poverty

Greatly Aiding Canadian West In Its Struggle For Survival

Ottawa, Ont.—On Continued Increase In Building Activity As Shown In April Figures for Building Permits Returns to the Dominion Bureau of Statistics from 91 cities give an average of \$13,700,000 worth of building permits issued in April. As compared with April, 1930, however, there was a decrease of \$3,191,000.

Manitoba, Saskatchewan and British Columbia recorded increases as compared with March, 1931.

Agreements Offer Of Frustration

Saint John, N.B.—Charles D. Richards, of Fredericton, accepted the office of premier of New Brunswick at the hands of His Honor H. H. McLean, Lieutenant-Governor of the Province. This follows the resignation of Hon. E. L. M. Baxter from the premiership office to a place on the Supreme Court Bench of New Brunswick.

Titles Must Wait

Ottawa, Ont.—The single item is one of the greatest factors in aiding the Canadian west through these days of stress, says Fred C. Elford, Dominion Poultry Husbandman, following an official trip through to the west.

"It is poultry which is carrying things along," he declared. "For the farmers have the feed on hand and are turning it into new laid eggs."

Another Loan For India

London, England.—Some surprise was expressed in London at the announcement of a six per cent loan of \$5,000,000 for the government of India. It was issued at 100, redeemable in 1933 and 1934. The last loan was received with great success.

International Silver Conference

Shanghai, China.—Chinese banking circles indicated the Nationalist Government was expected to inaugurate a movement seeking an international silver conference in China. T. V. Soong, Minister of Finance, was expected to lead the movement.
